PUBLIC NOTICE
MODIFICATION TO WASATCH REGIONAL LANDFILL PERMIT

Wasatch Regional Landfill Inc. and the State of Utah School and Institutional Trust Lands Administration have submitted a modified design for the construction of their Class V landfill located on 2,000 acres on the west side of county road #128 approximately six miles north of interstate 80 in Tooele County. The modification eliminates the disposal of waste in the eastern portion of the site, which has the highest groundwater levels. The modification reduces the size of the individual disposal cells, and incorporates a dewatering trench to ensure adequate separation from groundwater.

The proposed modification has been reviewed and determined it to be complete and in compliance with the *Utah Solid Waste Permitting and Management Rules*. The public comment period for the modification begins on June 30, 2005 and ends August 1, 2005. A public hearing may be held if, within 15 days of publication of the notice, a request is made to the Executive Secretary in writing and meets the requirements of Utah Administrative Code R315-311-3.

Copies of the modification are available for public review during normal business hours at the following location.

Utah Division of Solid and Hazardous Waste
